Intern for Modelling of Innovative Insurance Solutions for Green Technologies (m/f/d)*

Location
Munich

Green Tech Solutions pools the expertise for the development and underwriting of complex solutions in the sectors of renewable energy and energy efficiency.

Your job
- Assist the modelling and pricing experts in their daily business
- Support management in the implementation and development of strategic topics
- Collect and consolidate business information and maintain data quality
- Analyse client submissions and support underwriters in writing innovative and bespoke insurance solutions

Your profile
- University studies in mathematics or related disciplines, accomplished bachelor degree is preferred
- Strong analytical skills, solution orientated thinking, strong MS Office expertise
- Prior relevant internship / working experience is clearly a plus
- Profound English skills, self-reliant, cooperative working style

About us
Munich Re is one of the world’s leading reinsurance companies with more than 11,000 employees at over 50 locations around the globe. We are working on topics today that will concern the whole of society tomorrow, whether that be climate change, major construction projects, gene technology or space travel. We find solutions to these challenges through a network of highly qualified professionals who anticipate risks, work on tailor-made solutions and expertly advise our clients. If you want to help shape the future as part of one of our teams, we look forward to hearing from you. Please click on the link to apply online.

Make it happen.
